

UK ADULT SOCIAL CARE · POLICY COMPLIANCE PLATFORM

Keep every policy audit-ready — automatically.

CareComply reviews your care policies against the latest CQC, NICE, ICO/UK GDPR, HSE, DHSC, NHS England and local authority guidance — surfacing gaps and drafting compliant replacement wording in minutes, not weeks.

THE PROBLEM

Registered Managers are expected to keep dozens of policies aligned with regulation that changes constantly. Reviews slip, evidence gets thin, and gaps only surface at inspection.

HOW IT WORKS

01**Upload**

PDF or Word policies, tagged by category and by site.

02**Assess**

Scored against CQC, NICE, ICO/UK GDPR, HSE, DHSC, NHS England and your local authority.

03**Rewrite**

AI drafts compliant replacement clauses, personalised to your service.

04**Sign off**

Approve, export a branded Word document and lock a new policy version.

BUILT FOR

Residential · Nursing · Domiciliary · Supported Living · Learning Disability providers

“The gap list alone replaced two days of manual policy review before every inspection.”

WHAT YOU GET

● Framework-aware assessment

CQC Fundamental Standards, NICE, ICO / UK GDPR, HSE, DHSC, NHS England and your chosen local authority — in a single pass.

● Live regulatory monitoring

Daily feeds scored for care relevance, with email digests so you hear about change before your inspector does.

● Personalised rewrites

Drafts reflect your provider overview, service type, staff roles and grades — not generic boilerplate.

● Version control & evidence

Every sign-off creates a dated version with an audit trail you can show at inspection.

● Multi-site ready

Site-scoped policies for groups operating different service types or local authorities.

● Team roles & invites

Owner, Admin and Member permissions with secure invite links and role-aware content.
