CareComply

by PolicyComply

UK ADULT SOCIAL CARE · POLICY MANAGEMENT

AI-assisted policy management. Human-led approval.

Less policy administration. Relevant guidance. Human control.

CareComply helps care providers identify gaps, prepare relevant updates and maintain policies and procedures—with your team reviewing and signing off every published change.

THE CONNECTED COMPLIANCE CYCLE

01 · Check your register

See which policies and procedures each site needs for its care type, and draft missing documents in your context.

02 · Assess real documents

Check policies against selected, applicable frameworks. Attach relevant supporting documents for fuller context.

03 · Prepare relevant updates

Revise weak wording for your provider, sites and local context. Re-score assessment drafts before sign-off.

04 · Create procedures

Create several role-aware procedures from one policy, linked to its source and flagged when that policy changes.

05 · Build the handbook

Compile staff guidance with an emergency quick-reference index, shaped by your own plain-English instructions.

06 · Monitor change

Follow relevant regulatory updates in one feed, with immediate, daily or weekly email digests.

YOUR COMPLIANCE OFFICER

Daily impact checks flag which documents may need attention and why. Assess affected policies in bulk and ask questions grounded in your organisation’s documents, assessments and gaps. The officer provides information and guidance—not clinical or legal advice—and does not automatically change your policies.

HUMAN CONTROL AND CLEAR LIMITS

Review before use. AI can make mistakes. Your team checks accuracy, suitability and local practice before approving drafts; responsibility remains with your organisation.

Scores, not guarantees. Scores indicate assessed document coverage against selected criteria—not CQC approval, an inspection prediction or guaranteed compliance. Written policies do not prove how care is delivered.

Supporting information. Uploaded originals are kept as supplied. Relevant content is processed by AI for assessment and drafting. Only share information you are authorised to use and remove unnecessary resident or staff identifiers.

Residential care homes · Nursing homes · Home care · Supported living · Learning disability services
Children’s services / Ofsted: coming soon. No government or CQC endorsement is claimed.

WHAT YOUR TEAM GETS

Register gap checks

Identify missing policies and procedures for each site’s care type.

Relevant frameworks

Select applicable CQC, NICE, ICO, HSE, DHSC and other guidance; UKHCA for relevant home-care services.

Contextual drafts

Provider type, sites, local context and staff roles shape topic-focused documents.

Re-score before sign-off

Check assessment drafts against the same criteria, with an advisory warning below 85%.

Procedures from policy

Several practical procedures per policy, linked to the source version.

Staff handbooks

Your documents and instructions, with an emergency quick-reference index.

Compliance Officer

Daily impact analysis, bulk policy checks and organisation-grounded answers.

Multi-site view

Filter and group by site; see CQC ratings and last inspection dates.

Word, PDF and ZIP packs

Download single documents or whole packs for each site.

Permanent references

Policy and procedure codes across titles, files and staff guidance.

Version and review history

Retain earlier versions, assessment scores and signed-off improvements.

Account protection

Optional two-step sign-in. Uploaded originals remain as supplied.

START FREE. UPGRADE WHEN YOU ARE READY.

FREE · £0

Permanent. No expiry. No credit card.

- One policy assessed across available frameworks, with repeat checks
- Plus one second choice: assess a second policy OR create one procedure from the first
- Unlimited policy uploads, sites and team members
- View your missing-policy register check
- Regulatory feed and app-use help from the officer

FULL CARECOMPLY

£600 a year for the first site

£300 a year for each additional site.

- Unlimited assessments, policy updates and draft re-scoring
- Missing-policy and procedure creation
- Organisation or site staff handbooks
- Compliance Officer impact analysis, bulk checks and grounded answers
- Regulatory digests, version history, references and Word/PDF/ZIP packs

Prices exclude 20% VAT. Additional sites share the same renewal date.
